MONMOUTH
RUBBER & PLASTICS CORP.

MANUFACTURER OF
CLOSED CELL SPONGE RUBBER
& PLASTIC FOAM

MADE IN AMERICA
TRUSTED THROUGHOUT THE WORLD

OCTOBER 2026

MATERIAL CERTIFICATION

Monmouth Rubber & Plastics hereby certifies that all our products including Durafoam™, Duraflex™ and Bondaflex™, are produced in our USA manufacturing facilities located at 75 Long Branch Ave., Long Branch NJ, 07740, and 4445 Barnwell Rd. Williston, SC 29853.

10 U.S.C. §4862 requires the Department of Defense to buy certain articles from American sources, meaning the entire supply chain from raw material to finished product must be 100% domestic. 10 U.S.C. §4862 also states that an item must be grown, reprocessed, reused, or produced domestically in the United States, and it is commonly referred to as "the Berry Amendment".

As with any closed-cell rubber sponge manufacturing operation in the United Sates and in the world, many of our raw materials are imported from overseas. We must note that Monmouth Rubber & Plastics Corp. works with long-established local or international importers.

Our factories are available for inspection and confirmation if required.

Physical Testing Lab
John M. Bonforte Sr., Manager

ISO CERTIFIED 9001:2015
